**059/1314 REDHILL BRIDGE**

Mike Davies of Shropshire Council had sent an email consulting the Council on a proposal to change the reason for the weight restriction on the bridge from a structural limit of 18 tonnes to an environmental limit. Due to strengthening works having been done to the bridge, the structural weight limit should be removed as the bridge now has a 40 tonne capacity. However, Shropshire Council were mindful of the need to ensure that HGVs which are unsuitable for travelling along the route and surrounding roads were restricted. Hence, it was proposed to replace the structural weight limit with an environmental weight limit. The estimated cost was £1500 to £2000.

The Council **RESOLVED** to support the change from an environmental to a structural limit (*P: Cllr. Perkins, S: Cllr. Taylor*).
